Komplek GBI Blok Ebok No.55 RT.08 RW.06 Kec. Bojongsoang Kab. Bandung 40287

I graduated with honors from Telkom University with a bachelor's degree in computer software engineering in 2023, where I also worked as a laboratory assistant at the informatics laboratory. In my most recent intern role, I contributed to creating a restful API using Node.js and Golang. My hobbies are playing games especially on the testing stage, and reading comics, and I am always eager to expand my knowledge and skills in the field.

Work Experiences

Telyukost - Kab. Bandung, Indonesia

Feb 2023 - Aug 2023

Software Engineering

Telyukost is a platform that focuses on search services and online board ordering and is based at Telkom University. The main job description that I do is create RESTful APIs in Node.js, initiate and maintain the GCP server, deploy services including FE and BE services using Docker, and monitor all services that are deployed on the server.

PT. Telkom Indonesia - Jakarta, Indonesia
